This is your request form for theatre tickets. Print it out and hand this form in to the Office as soon as you arrive...

Write your INVOICE NUMBER in this box...

If you wish to go to the theatre, choose in advance what you want to see. Here are the shows and what they cost (ticket + travel). This represents the cost to us of the ticket and the bus. The price of each is a special group rate and is a real bargain for a top West End musical. The cost is different from the price written on the ticket, because we must add the cost of travel and staff supervision.

Include the cost of the theatre visit(s) in the pocket money you bring. The cost will be deducted from pocket money on the first day. Travel is by school bus with accompanying staff. We have only 46 tickets available for each show. Those who applied earliest for a place on the Course have the first choice of show. We shall allocate preferences IN ORDER OF INVOICE NUMBER (the lowest number being first.) Put your number at the top right of this form. The number range in 2009 starts at 13414. When everyone who wants to go has been allocated a first ticket, we shall allocate second tickets in the same way to those who want to go to two shows., Then we allocate third choices. If you indicated your wish to go, but are not allocated a ticket, the money will remain as pocket money for you to use or take home.

Below are listed the West End musicals on offer with the date. Put your choice in order of preference by number (1, 2, 3.) Give a second and third choice if you can because you may not get your first choice. If you do not wish to go to a show, leave the box empty. If you wish to go to more than one show, write '2' or '3' in the green box. This will be possible only if there are tickets remaining after we have allocated all first choices.

Don't leave this form in the white wallet. **HAND IT TO ME** when you arrive. **DON'T POST OR FAX IT IN ADVANCE.** I put forms in Invoice number order on the first day of the Course, so no form = no ticket. Remember, write 1, 2 or 3 NOT or X. Leave blank what you don't want.
